Enthusiastic MERN stack developer, dedicated to crafting innovative web solutions with a passion for Cloud Computing.

Education

Jaypee University of Information and Technology (JUIT)

B.Tech in CSE

8.04

Solan

Sep. 2020 - Jun. 2024

HMS

Class XII

82 percent

Kanpur

2019

Technical Skills

Programming C, C++, Python, JavaScript, Excel

Other Skills SQL, Data Structures and Algorithms, Problem Solving, Business Analytics

Platforms GitHub, Microsoft Visual Studio IDE, Microsoft Visual Studio Code

Languages Hindi (Native), English (Professional working proficiency)

Projects

Developed a personal portfolio website using React.js and Tailwind CSS framework.

Personal Portfolio Website using React.js and Tailwind CSS

- Developed the portfolio website using React.js, Tailwind CSS, and component-based architecture.
- Implemented a visually appealing and responsive layout for showcasing skills, projects, and experience.
- Hosted the website using GitHub Pages for easy accessibility.

Developed a full-stack web application using the MERN stack (MongoDB, Express.js, React.js, Node.js).

MERN-based AI Web Application

- Implemented a full-stack web application using the MERN stack.
- Integrated OpenAI's DALL-E model for image generation from text input.
- Utilized Cloudinary for cloud-based image storage and management.

Developed a collaborative code editor using MERN (MongoDB, Express.js, React, Node.js) stack, integrated with Websockets, and CodeMirror.

Collaborative Code Editor using MERN Stack with Websockets

- Built a real-time collaborative code editor with features for multiple users to edit code simultaneously.
- Utilized Websockets in Node.js to facilitate real-time synchronization of code changes across users.
- Integrated CodeMirror for code highlighting and editing capabilities.
- Implemented user authentication and data storage with MongoDB.
- Designed an interactive and user-friendly interface using React.

Experience

ENS Enterprise

05/2023 - 07/2023

Web Development Intern

- Collaborated with the Web Development team to create and implement web applications using Express and Node.js technologies.
- Assisted in designing and developing the backend functionalities of web projects, ensuring optimal performance and responsiveness.
- Participated in code reviews, providing constructive feedback to improve code quality and maintain best practices.

Rotaract Club Of Wagnaghat

08/2022 - 03/2023

Director Media and Publicity

- Designed and executed social media campaigns for the club's events.
- Managed the website of Rotaract Club Of Wagnaghat, ensuring up-to-date information and engaging content.
- Worked collaboratively with other members to organize community service projects.

JUIT Youth Club (JYC)

07/2022 - 08/2023

Student Coordinator

- Coordinated successful events, including inter-college competitions, guest lectures, and social awareness drives.
- Mentored and trained new members of the club.
- Contributed to the development of the club's annual report.
